

GUIDELINES FOR INVESTMENTS CAPITALIZE ALBANY CORPORATION

These guidelines detail the operative policy regarding the investing, monitoring and reporting of funds of the Capitalize Albany Corporation (“CAC”).

1) Purpose.

These investment guidelines (“Guidelines”) are intended to:

- a) Establish a system whereby current funds on hand, in excess of immediate and near-term needs, are invested to assure that such investment assets are adequately safeguarded and collateralized.
- b) Assure that such investments are adequately liquid to meet the operational needs of the CAC;
- c) Assure that an adequate system of internal control is maintained; and
- d) Assure that such investments produce a reasonable rate of return.

The primary objectives of this portfolio are: (1) preservation of capital, (2) liquidity, and (3) prudent growth of principal.

2) Authorization and Management.

The Board Members of the CAC have delegated the authorization to make day-to-day investment decisions to the President and/or Controller (“Authorized Persons”), subject to the direction from the Board and/or Finance and Investment Committee. Detailed reports of the corporation’s investments will be provided to the Finance and Investment Committee and the Committee will provide a summary of such report/required actions to the Board at the next scheduled meeting.

These Authorized Persons are to make certain that all CAC investment decisions/actions conform to:

- a. section 2925 of the Public Authorities Law; and
- b. these Guidelines.

The Authorized Persons are authorized to deposit all funds received by the CAC (in excess of those needed for on-going operations) consistent with these guidelines. Additionally, subject to Board/Finance and Investment Committee Approval, a professional investment advisor (“Advisor”) may be retained to assist the CAC’s implementation of these Guidelines and the CAC may grant the advisor discretion to execute transactions within the context of these Guidelines. The advisor will be expected to act as a fiduciary at all times in the best interest of the CAC.

3) Investment Strategy

CAC's investment objectives will be achieved primarily with fixed-income investments and, to a lesser extent, with quality equity investments. However, there is no requirement that the portfolio contain equities.

Fixed-income securities in the combined portfolios will include cash equivalents, short- and intermediate-term fixed-income securities. The portfolio will be allocated to these categories based upon cash flow needs as determined by CAC.

Equity investments will be well diversified, high grade and readily marketable.

The investment return on the short-term fixed-income portion of the portfolio will be measured against short-term U.S. Treasury Bills. The investment return on the intermediate-term fixed-income portion of the portfolio will be measured against the Barclays Intermediate Government Credit Index. The investment return on the equity portion of the portfolio, when appropriate, will be measured against the S&P 500.
