This documentation will include an explanation of how the reward will achieve savings or how the offeror was not responsible. A determination that the offeror is not responsible shall be made by the purchaser and may not be challenged under any circumstances.

SECTION 4. CIRCUMSTANCES WHERE SOLICITATION OF ALTERNATIVE PROPOSALS AND QUOTATIONS NOT IN BEST INTEREST. This Policy may contain circumstances when, or types of procurements for which, in the sole discretion of the directors of the Corporation, the solicitation of alternative proposals or quotations will not be in the best interest of the Corporation. In the following

circumstances, it may not be in the best interests of the Corporation to solicit quotations or document the basis for not accepting the lowest bid:

(A) Professional Services. Professional services or services requiring special or technical skill, training or expertise. The individual, company or firm must be chosen based on accountability, reliability, responsibility, skill, conflict of interests, reputation, education and training, judgement, integrity, continuity of service and moral worth. Furthermore, certain professional services to be provided to the Corporation, e.g., legal and accounting services, impact liability issues of the Corporation and its directors, including securities liability in circumstances where the Corporation is issuing bonds. These qualifications and the concerns of the Corporation regarding its liability and the liability of its directors are not necessarily found or addressed in the individual, company or firm that offers the lowest price and the nature of these services are such that they do not readily lend themselves to competitive procurement procedures.

In determining whether a service fits into this category, the Corporation shall take into consideration the following guidelines: (a) whether the services are subject to state licensing or testing requirements; (b) whether substantial formal education or training is a necessary prerequisite to the performance of the services; and (c) whether the services require a personal relationship between the individual and the directors of the Corporation. Professional or technical services shall include but not be limited to the following: services of an attorney (including bond counsel); services of a physician; technical services of an engineer engaged to prepare plans, maps and estimates; securing insurance coverage and/or services of an insurance broker; services of a certified public accountant; investment management services; printing services involving extensive writing, editing or art work; management of Corporation-owned property; real estate brokerage services; appraisers; and computer software or programming services for customized programs, or services involved in substantial modification and customizing of pre-packaged software.

(B) Emergency Purchases. Due to the nature of this exception, these goods or services must be purchased immediately and a delay in order to seek alternate proposals may threaten the life, health, safety or welfare of the public. This section does not preclude alternate proposals if time permits.

(C) Purchases of Secondhand Goods. Purchases of surplus and second-hand goods from any source. It is difficult to try to compare prices of used goods and a lower price may indicate an older product.

(D) Goods or Services Under \$7,500.

(E) Special Findings. In the event the Corporation determines that the solicitation of alternative proposals or quotations is not in the best interests of the Corporation, the Corporation must make such determination by resolution duly adopted and entered into the minutes of the Corporation. Such resolution should include any findings described in this Section 4 supporting such determination.

SECTION 7. POLICY REVIEW. This policy will be reviewed annually.

Mission Statement:

The mission of the Capitalize Albany Corporation is to facilitate economic development projects within the City of Albany.

Authorities Budget Office Policy Guidance

No. 10-02

Date Issued: March 1, 2010

Supersedes: New

Subject: Public Authority Mission Statements and Measurement Reports

Statutory Citation: Section 2824-a, Public Authorities Law
Section 2800 of Public Authorities Law

Provisions: Chapter 506 of the Laws of 2009 (“The 2009 Public Authorities Reform Act”) added a new Section 2824-a in Public Authorities Law requiring state and local public authorities to develop and adopt a mission statement. The law also requires public authorities to develop performance measures to assist the authority determine how well it is carrying out its mission. Pursuant to this section, each state authority is to provide a copy of its mission statement and performance measures to the Authorities Budget Office, using the attached form, on or before March 31, 2010. Every local authority is to file a mission statement and performance measures with the ABO using the attached form by March 31, 2011.

For subsequent reporting years the mission statement is to be included as part of the Annual Report required to be filed with the ABO pursuant to Section 2800 of Public Authorities Law. Every public authority is also expected to annually review its mission statement and measures and publish a measurement report.

Public authorities are also required to post and maintain their mission statement and performance report on their web site.

Authorities Budget Office Policy Guidance: The mission statement is the prism through which a public authority’s actions are evaluated and its policy decisions are judged. Given its importance in defining how the public authority will operate, the board, in conjunction with the executive management of the authority, should exercise due diligence when developing and reviewing the authority’s mission statement, and the goals and measures that will be used to evaluate whether the authority is fulfilling its mission. Boards of directors should take time to thoroughly discuss, re-think, and reach agreement on the actual mission of their authority and to draft a mission statement that reflects this agreement. Only after undertaking this process and adopting a new mission statement should the authority submit its mission statement to the ABO and post it to their web site.

As a matter of law, public policy, and sound management, it is imperative that directors define and understand the purpose of the authority and the public interests it serves, and reflect these concepts in a mission statement. A board

member cannot properly execute his or her fiduciary duty without first understanding the mission and interests served by the authority.

A mission statement should capture in a few clear and concise sentences the purpose of the public authority, its goals and its reason for existence. The mission statement should address the intent and purpose for which the public authority was created. It should express the philosophy and guiding principles of the public authority, and provide staff and the public with an understanding of the values and culture of the organization. It should describe generally the services the public authority provides, the community it serves, and the reasonable expectations of its stakeholders. The mission statement should also be specific enough to be able to assess the organization's performance and to measure its success in achieving its intended public purpose.

When drafting an appropriate mission statement and evaluating its effectiveness, it may be helpful to answer the following questions:

- What is the public purpose for which the authority was created?
- How can we best achieve that purpose?
- How do we assess whether an action or decision before the board is consistent with this mission and the public interest?
- Who are the authority's stakeholders?
- What are the authority's goals?
- What are the values of the authority?

Once a public authority defines its mission and the interests and expectations of the community it serves, policies must be implemented to achieve those objectives. Performance measures are a means for the board and management to evaluate and monitor whether the authority's policies and operating practices are in accordance with its mission. Performance measures need not be complex or detailed. Performance measures will also vary depending on the purpose, size, and resources of the authority. They should be designed to answer some fundamental questions:

- How do we know if we are performing our mission?
- How do we know if we are performing that mission well?
- How can we be more effective and efficient?
- How do we know if we are meeting the interests of those we serve?

An authority's board must annually review the authority's mission statement and performance results to ensure that its mission has not changed and that the authority's performance goals continue to support its mission. Authorities are to annually report their performance results and revise their goals as necessary.

Implementation of Statutory Requirements: Authorities should complete the attached form and submit the entire document to the ABO via e-mail (info@abo.state.ny.us).
