General Project Description

Provide a description of the proposed project in 2,000 characters or less. Please be as detailed as possible, providing as much information as you can about the proposed project and the desired results. Also, discuss the benefit the project will have on an established commercial corridor, how this project is creative and highlights positive aspects of the targeted area.

For example:

The Community Neighborhood Association will be hosting a street fair on Any Avenue between One Street and Two Street. The event will begin at 11:00 am on October 10th, 2022 and end at 7:00pm the same day. The eight (8) restaurants located in this area are planning on participating with free tastings. An additional 10 vendors will be on hand selling crafts and other goods. A list of all participating businesses and vendors including contact information is attached to this application. Entertainment will include musical performances by Rock Band One and Rock Band Two. Activities for families will include a community art mural, face painting, a magician and a life size game of checkers.

This event will be open to all ages and free of charge. Wrist bands will be provided to participants upon entering the event and used to track the number of attendants. The event is expected to draw members of the neighborhood in which it is occurring and adjacent neighborhoods. In addition, the event will be advertised at the nearby College and by the two large employers nearby. The benefit of this event to the commercial corridor will be reinvigorating residents' interest in neighborhood restaurants and hopefully generate sales. The event will also attract employees from two major employers and college students encouraging them to further explore the neighborhood they work and study in.
